## Hand + Brush Cleaner

90% GREEN, BIOBASED INGREDIENTS

Ingredient	What is it?	Purpose
 <b>WATER</b>	H <sub>2</sub> O compound—the most abundant thing on earth!	Natural cleaning solvent to dissolve grime.
 <b>CORN OIL</b>	Made from the largest native crop in the U.S. This grade of oil is the same as what is sold in food stores!	Degreases and helps clean. Works as well or better than petroleum-based mineral oil. Kind to your skin!
 <b>METHYL SOYATE</b>	A newer, non-flammable solvent to break up grime. Synthesized from soy bean oil.	Replaces some toxic petro and natural solvents. Great solvency; safe, less drying.
 <b>CITRUS OIL</b>	Commonly known as d-limonene solvent. Made from essential oils (e.g., orange). Part of the terpene group including pine oil.	Acts as solvent and odorant. A minimal amount is used!
 <b>CINNAMON</b>	Extracted from several kinds of dried asian tree bark. Related to the laurel family of trees.	Neutralizes odors of paints, petroleum and other gas type smells. Natural aphrodisiac and anti-inflammatory.
 <b>GLYCERIN</b>	Synthesized from vegetable oil.	Helps maintain skin moisture and condition brushes.
 <b>LANOLIZED ALCOHOL</b>	After sheep are sheared, the wool is washed and lanolin fat comes off the wool. Refined and provides few allergy problems.	A skin emollient and conditioner which also helps brushes.
 <b>OTHER INORGANIC SOURCES</b>	Preservative. NP9: nonionic surfactants NP6: inorganic compounds. Also used in laundry detergents; broken down in sewage treatment.	Small amount inhibits mold. Used to increase the detergency, dispersibility and wetting agents of the other ingredients.
